

1. Generate and save license request file

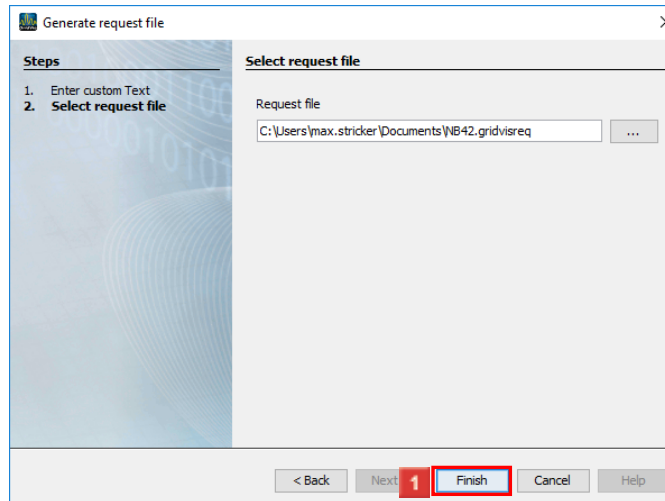

1 Click the **Show license manager** button.

1 Click the **Save request file** button.

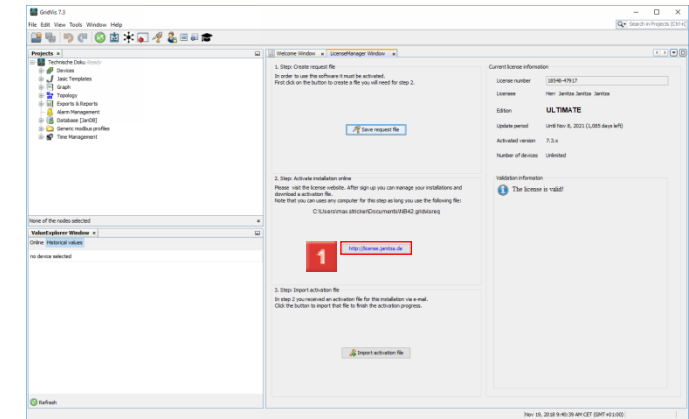

1 Enter the name (file name) in the **Custom text** input field. Click the **Next** button.

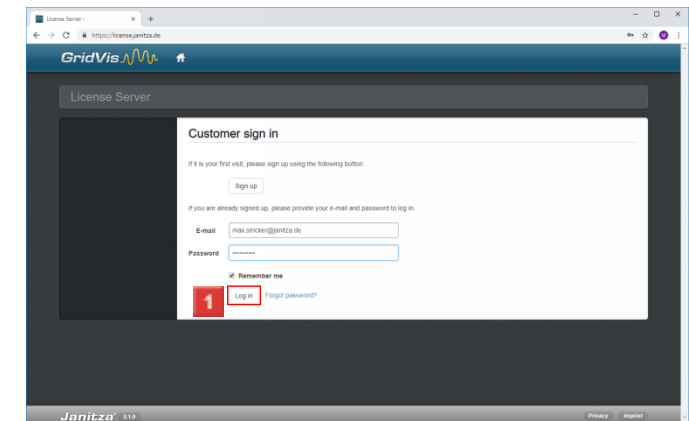

1 Click the **Finish** button.

2 License server

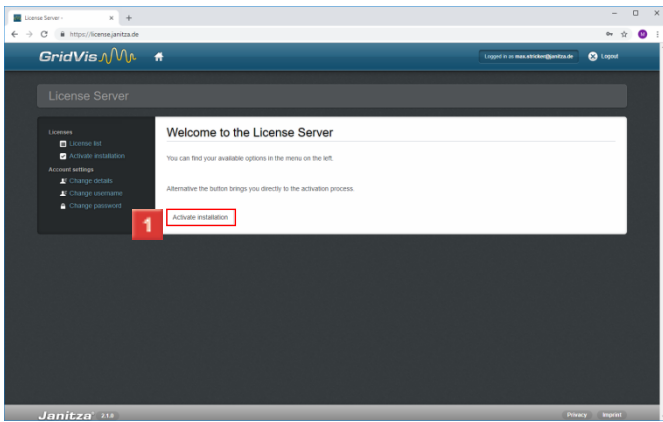

1 Click the **http://license.janitza.de** hyperlink.

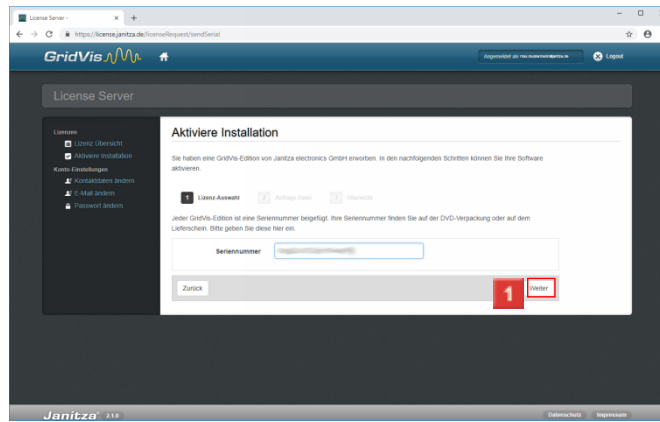

1 Enter your login data in the corresponding input fields and click the **Log in** button.

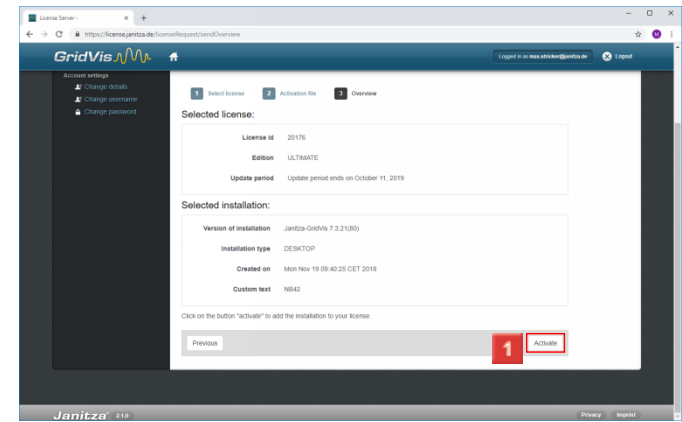

If you do not yet have a customer account, click **Sign up** to create one.

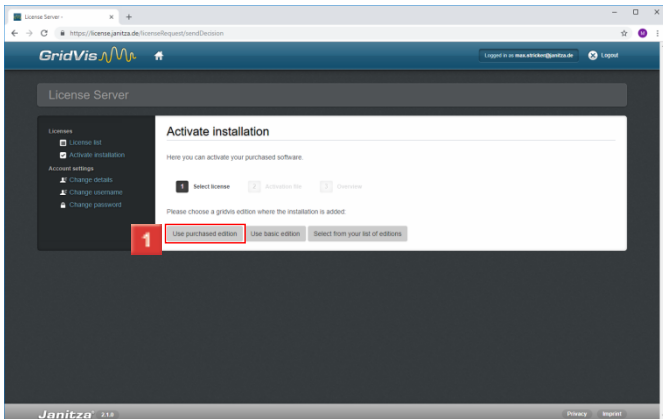

1 Click the **Activate installation** button.

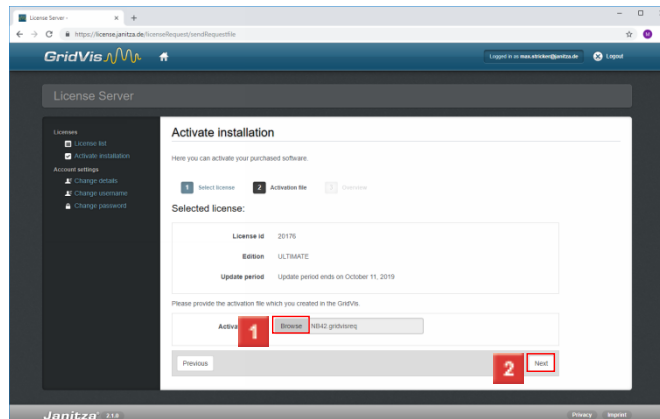

1 After you have entered the serial number in the **License key** input field, click the **Next** button.

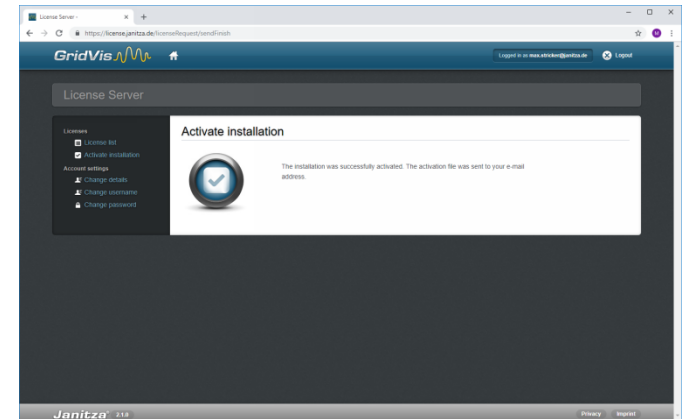

1 Click the **Activate** button.

1 If you still have free licenses available, you can activate the installation on one of these licenses here. Click the **Use purchased edition** button.

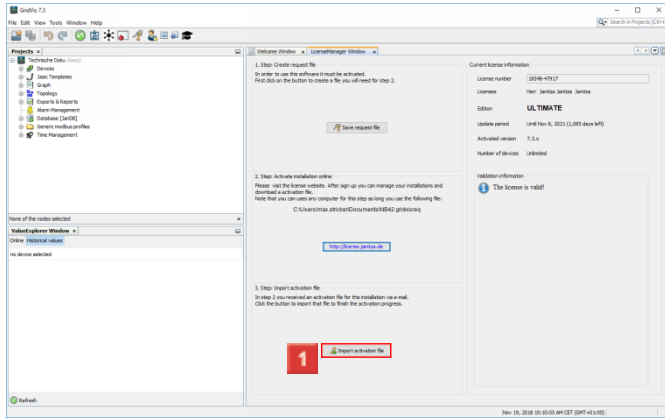

1 Click the **Browse** button and in the next step, select the previously created license activation request file.
2 Click the **Next** button.

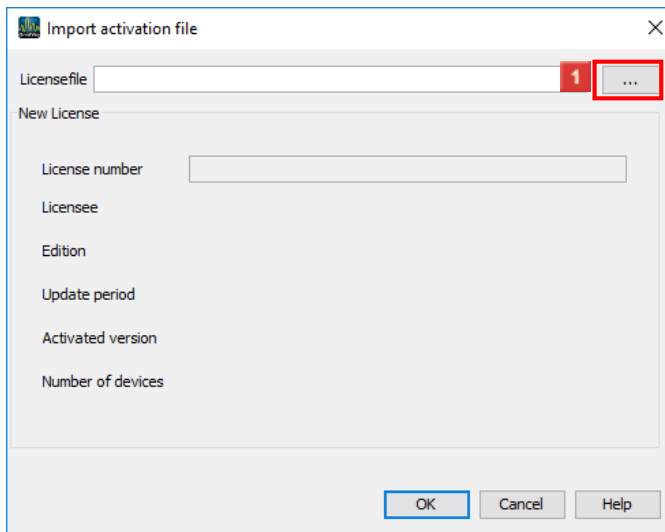

1 Retrieve your e-mails and save the activation file sent to you.
To complete the activation, switch to your GridVis installation.

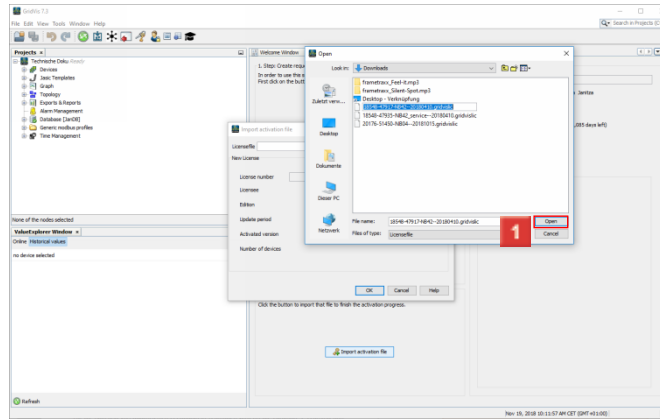

3 Import the activation file

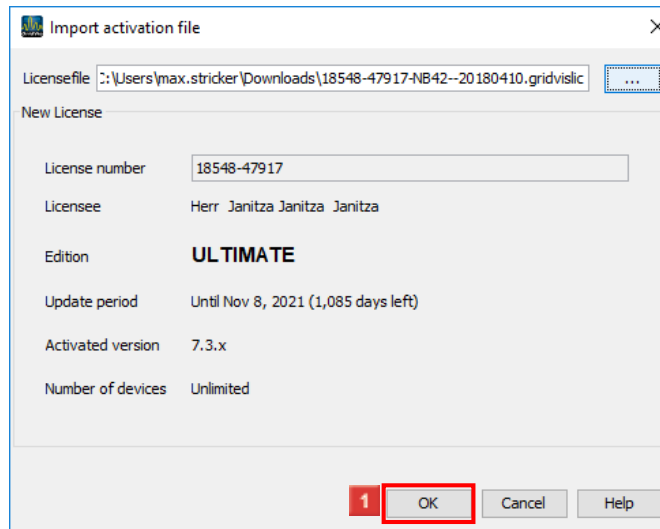

1 Click the **Import activation file** button.

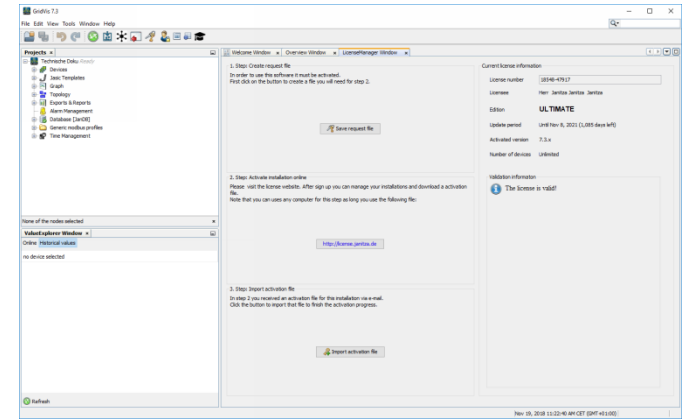

1 Click the **...** button.

1 Select the downloaded activation file and click the **Open** button.

1 Click the **OK** button.
